

## Joining the Worship Ministry at Elk Creek Church

Thank you for your interest in joining Elk Creek's worship team! We lead worship with the goal of helping our congregation put away distractions that will interfere with coming to Jesus Christ in true worship.

This application process is a practical tool for evaluating the skills and hearts of those that feel called to serve in this ministry.

Our application process is as follows:

- Review Expectations
- Complete Application
- Submit Video
- Join our Wednesday afternoon rehearsal

Please review the expectations of a worship team member. If you feel your beliefs and life are in line with these expectations, then proceed to complete the provided application.

At the end of the application there are instructions on how to submit a video of yourself singing or playing your instrument.

- Video instructions:
  - For vocalists, please record yourself singing one of the songs from our song list (can be to a karaoke track, which you can find on iTunes or Youtube).
  - For instrumentalists, please record yourself playing your instrument. This can also be along to a recording of one of the songs from our song list. Please choose a song that showcases your abilities and try to learn it as close to the recording as possible.
  - For both, please make sure the sound mix is adjusted properly so we can hear YOU. Upload your video(s) to Youtube as "unlisted," and paste the link(s) in the space provided at the end of the application.

After receiving your application and video, you will be contacted by our worship pastor Ryan Drabek or someone on the worship team. If this ministry is not a good fit for now, we may give you other ministry area suggestions where you can use your talents, or ideas to help prepare you to join the ministry in the future. If it seems like a possible fit, you will be given songs to practice and scheduled to come play with us at a Wednesday 5:00pm rehearsal.
